

## SELF-DRILLING SCREW

### Product introduction:

It is a new invention in recent years. Its tail is in the shape of drill tail or sharp tail, without auxiliary processing. It can directly drill, tap and lock on the setting material and basic material, thus greatly saving the construction time. Compared with ordinary screw, it has high tenacity and maintenance force, and it will not loosen after a long time

### Product Feature :

Recess: Cross

Head: Countersunk, Pan

Surface: Zinc Plated, Dacromet

### Product parameter:

DIN 7504K Hex Washer Head Self Drilling Screw

Hex Flange Self Drilling Screw

DIN 7504P Cross Recessed Countersunk Head Self Drilling Screw

DIN 7504N Cross Recessed Pan Head Self Drilling Screw

**Product Application:**

It is a kind of screw, which is mainly used to fix the colored steel tile of steel structure, and also can be used to fix the sheet material of simple building. It cannot be used for metal to metal bonding.

[YUYAO ALFIRSTE HARDWARE CO., LTD](#) is specialized in the production of screws and anchors. Such as Drywall screw, Hex head/Truss head/CSK head/Pan head self-tapping/drilling screw, Chipboard screw, Construction wood screw, Sleeve anchor, Metal frame anchor, and threaded rods. [China reliable SELF-DRILLING SCREW supplier.](#)
